Startup in the home garage at Hinna in 1979 in with imports and wholesale

More than 30 subsidiaries in Norway, Sweden and Denmark

Involved in import, wholesale, retail, industry and property

Retail chains: Kremmerhuset and Feel

33,1 % shareholder in Homeco AS, the owner of Cervera, Kitch'n, Tilbords and Magnor.

“It has been a long journey from the garage in 1979 to where I am today, from the time when I did everything myself, to now, with professionals and own departments for IT and finance. I think I have more than 30 companies, with subsidiaries and ownership companies.

All in all, it has gone well. You miss something, that's business, but I usually say that I have hit a little more than I have the beam.”

Dalema has a large and efficient distribution network. Several major business parks are strategically located in the south of Norway, Sweden and Denmark. This provides a quick and efficient distribution of products to our stockists.

Today's activities demand a great deal of precision in quality monitoring, stock handling and logistics, and the group is therefore represented with companies as close to the place of manufacture as possible; in China and Malaysia respectively.
